## **Scottsville Plans**

The Comprehensive Plan guides the future of land use and community services in town. Town Council and Planning Commission update the plan every five years. View the adopted 2018 Scottsville Comprehensive Plan.

Several related files complement the comprehensive plan but are not formally part of the plan:

- This UVA Architecture Presentation shows work by students in 2017 to gather conceptual design ideas for the town.
- The 2018 Scottsville Mixed-Use/Mixed-Income Report shows market research and demographic detail.
- The 2019 update to the Van Clief Nature Area Plan details improvements to the largest park in town.
- The West Downtown Small Area Plan goes into more detail with goals for the tire plant and nearby neighborhood. A state grant paid for three consultant teams to inform the plan.
  - Community outreach report by Thomas Jefferson Planning District Commission
  - Hyosung Plant Pump Station Investigation and Flood Modeling by Timmons Group
  - Factory Redevelopment Study by Waukeshaw Development
