

# Water Supply Update: Conservation is Encouraged

News Release Date

09-13-2023

Dry weather throughout our area and has resulted in moderate drought-like conditions. On Tuesday, September 12, the [Rivanna Water and Sewer Authority](#) (RWSA), [Albemarle County Service Authority](#), and [City of Charlottesville Utilities Department](#) report that they are prepared to meet the community's public drinking water needs and they encouraged water conservation for public water and private well users, and for businesses.

See more details on action being taken by local agencies and municipalities, in addition to suggested community action that can be taken to conserve water at work and at home.
